

Disclaimer: The opinions and assertions expressed herein are those of the authors and do not necessarily reflect the official policy or position of the Uniformed Services University (USU) or the Department of Defense. This work was prepared by military and civilian employees of the U.S. Government as part of the individuals' official duties and, therefore, is in the public domain and does not possess copyright protection (public domain information may be freely distributed and copied; however, as a courtesy, it is requested that USU and the author be given appropriate acknowledgement).

Funding: This work was supported by the TriService Nursing Research Program (TSNRP) and Center for the study of Traumatic Stress.

Acknowledgments: Kennett Radford is a U.S. Navy Nurse Corps officer, and the authors would like to give special thanks to the Tri-Service Nursing Research Program (TSNRP) and the Uniformed Services University for generous funding in support of their ongoing research.

Conflicts of Interest: The authors declare no conflict of interest.
